10h00 CET
Central Europe / Lyon time

These form part of a series of GICR webinars taking place throughout 2026.

For full details and to register, click [HERE](#) or scan the QR code above.

Lead Presenter:

SULTAN ESER, MD, PhD is Professor of Public Health and currently Head of the Department of Public Health, University of Health Sciences, Izmir Medical Faculty, Turkiye. She is the Principal Investigator for the IARC Regional Hub for Northern Africa, Central and Western Asia (Izmir). She is leading cancer registration in Turkiye, training programs, workshops on cancer registration and cancer epidemiology in the Hub region.

Webinar Moderator:

ANTON BARCHUK, MD, PhD is a Senior Visiting Scientist at IARC and a cancer epidemiologist specialising in population-based cancer registration, cancer surveillance, and registry-based research. He is based at the Department of Medical Informatics at Erasmus MC. His research focuses on cancer registration, data quality assessment in cancer registries, and the use of population-based cancer registry data for descriptive and analytical epidemiology.
