**Lead Presenter:**  
**SARAH QUESNEL-  
CROOKS**

is Programme Coordinator at the Caribbean Public Health Agency (CARPHA) and Coordinator of the Caribbean IARC Regional Hub. She is a statistician and health information expert with extensive expertise in fostering regional collaborations in support of evidence-based decision-making in public health program development.

**Webinar Moderator:**  
**HEATHER ARMSTRONG, MD** is head of the Chronic Disease and Injury Department Caribbean Public Health Agency (CARPHA). She leads strategic initiatives aimed at reducing the burden of NCDs, with a particular focus on preventing premature mortality through evidence-informed policy, surveillance, and health promotion interventions. She is also the Principal Investigator for the Caribbean IARC Regional Hub.
